Overview of Terms and Conditions

The terms of a grant are the legal requirements imposed on the grant by the administering agency, whether based on statute, regulation, policy, or other document referenced in the grant award, or specified by the grant award document itself. The Notice of Award (NoA) may include both standard and special conditions that are considered necessary to attain the grant's objectives, facilitate post-award administration of the grant, conserve grant funds, or otherwise protect the Federal Government's interests.

The Terms and Conditions Module (TCM) enables grantee organizations to track due dates and submit supporting documents to satisfy the terms/milestones of their grant applications.

Terms and Conditions User Roles

Users with PI, SO and BO user roles can access terms/milestones in eRA Commons, view term tracking, add comments and submit supporting documentation.

View Tracked Terms
